

## **Animal Husbandry Department Kulgam at a Glance**

District Kulgam is an agrarian District with 80% of population residing in the rural set-up with different geography and climatology. Animal rearing has remained as the major activity of the people for earning their livelihood, since the prehistoric era. With the advancement of civilization and scientific outlook, the need of animal rearing has become an indispensable activity for creation of sound and solid society.

With the growing importance of meat, milk and milk products and introduction of highly improved and upgraded stock of animals, the sector got industrialized in terms of dairying and poultry farming as such created new chapter to face the massive unemployment in the District.

This major objective of Animal Husbandry Department Kashmir envisage enhancing magnitude of production, improving quality of produce and reducing cost of production. The key to success of preserving and improving the productivity potential of existing livestock, in genetically improved breeds, lies in accomplishment of following objectives:

- **Improvement in quality of animals by improving their traits.**
- **Manipulation of animal production.**
- **Effective nutrient utilization.**
- **Reduction of morbidity & mortality.**
- **Market intervention by co-operative farming.**

For achieving the aims and objectives mentioned above, Department through a well-knit network of the institutions in district Kulgam at village and Tehsil level has provided specialized services where technical and scientific programmes are being carried out in following sectors:

1. **Cattle Development.**
2. **Frozen Semen Technology.**
3. **Animal Health.**
4. **Supply of biological products and preventive vaccine.**
5. **Poultry Development.**
6. **Fodder Development.**
7. **Extension activities.**
