

Deputy Commissioner Message.

It gives me immense pleasure to present the official Website of district Kulgam. With the launch of the website, the district has become a part of cyber world. The main purpose of the website is to help in bringing transparency in public administration and a right step towards e-governance. The site will also serve as a reference guide and bring the administration closer to people. I also appreciate the excellent work done by the officers of National Informatics Centre for designing and developing this website and other projects including ERMS, PGR, ePDS and egovernance project for municipality for providing better services to the people of the district.

Talat Parvez Rohella (KAS)

Deputy Commissioner /

District Development Commissioner/

District Magistrate / District Collector Kulgam
